Melodia Income Portfolios are now offering a new income option – T-Class Units - February 3, 2014

Having accumulated capital, are you now looking to draw steady income? You will be pleased to learn that Melodia Income Portfolios now offer a new income option – T-Class Units.

This income option is for you if you are seeking:

- Steady monthly income
- A tax advantage
- Growth potential for your investments

What are T-Class Units?

T-Class Units allow you to draw regular, tax advantaged income, while capitalizing on market growth potential. In other words, you receive higher net income.

With Melodia Income Portfolios, T-Class Units will provide you with a fixed monthly income corresponding to the target annual rate of 4%, 5% or 6% of the value of your investment, depending on the type of portfolio.

Portfolios with T-Class Units	Distribution rate
Melodia Very Conservative Income Portfolio T4	4 %
Melodia Conservative Income Portfolio T4	4 %
Melodia Moderate Income Portfolio T5	5 %
Melodia Diversified Income Portfolio T6	6 %

Depending on market conditions, the initial value of your investment can be maintained, or can actually grow, even if you draw income from your investment.

For more information on this income option, go to [Investments 101](#) or contact your advisor.
