Desjardins Investments Inc. announces a material change in respect of the Desjardins Funds operating expenses

Montréal, September 10, 2015 – Desjardins Investments Inc. (“DI”), the manager of the Desjardins Funds, announces changes to the method currently used to charge operating expenses to the Funds.

Beginning October 1, 2015, DI will pay all of the Desjardins Funds’ operating expenses other than taxes and some other costs. In exchange, it will charge the Funds a fixed-rate administration fee. These changes were approved by the investors of certain classes or series of Desjardins Funds at a special meeting held on September 9, 2015.

These changes give investors the following advantages:

- **An equivalent or lower management expense ratio** (“MER”) for all Desjardins Funds, as compares to the MER cap for March 31, 2015;

- **Expenses will be predictable and transparent**, seeing as the key elements of the MER will now be fixed and no longer fluctuate from year to year, as is currently the case;

- **Competitive costs**, since the fixed administration fees have been set at very competitive rates, and their implementation will crystalize this situation.

The manager has submitted the changes to the Desjardins Funds’ independent review committee. After having examined the changes, the committee has determined that they will achieve a fair and reasonable result for the Desjardins Funds.

The proposed changes will be made if they are approved by the regulatory authorities. DI reserves the right to postpone to a subsequent date the implementation of any of the changes described above.
