FUND DESCRIPTION

The Desjardins Canadian Preferred Share Index ETF was designed to replicate—to the extent possible—the performance of the Solactive Canadian Rate Reset Preferred Share Index (TR) (the «Index»), net of expenses.

The current investment strategy is to invest in and hold the constituent securities of the Index in the same proportion as they are reflected in the Index or securities intended to replicate the performance of the Index.

BENEFITS

- Designed for investors looking for higher income from their portfolios.
- Invests in a diversified portfolio of rate reset preferred shares.
- Lower interest rate sensitivity than the full preferred share market.
