FUND DESCRIPTION

The Desjardins Canadian Universe Bond Index ETF was designed to replicate—to the extent possible—the performance of the Solactive Canadian Bond Universe TR Index (the “Index”), net of fees and expenses.

The current investment strategy is to invest in and hold the constituent securities of the Index in the same proportion as they are reflected in the Index or securities intended to replicate the performance of the Index.

BENEFITS

- Invests in a diversified portfolio of federal, provincial, and corporate bonds.
- Designed for investors looking for consistent income.
- Includes bonds with greater than one year to maturity.
