Desjardins Investments Makes Changes to Its Mutual Fund and ETF Lineup

Montreal, November 12, 2026 – Desjardins Investments Inc. ("DI"), as manager of the Desjardins Funds and the Desjardins Exchange Traded Funds (ETFs), announces upcoming changes to these two funds lineups.

These changes, described in detail below, include the designation of DI as portfolio manager of the Desjardins Funds and a significant portion of the Desjardins ETFs, as well as a reduction in the management fees applicable to certain classes of Desjardins Funds units

- **Designation of Desjardins Investments Inc. as Portfolio Manager of the Desjardins Funds and a significant portion of the Desjardins ETFs**

DI announces that, effective on or about January 1st, 2027, DI will act as portfolio manager of the Desjardins Funds and Desjardins ETFs, except for the Desjardins Global Macro ETF (collectively, the "Funds"), replacing Desjardins Global Asset Management Inc. ("DGAM").

In this regard, DI will retain portfolio sub-managers to assume responsibility for the management of the Funds' assets. Accordingly, this change will have no impact on the current management of the Funds' assets, which will continue to be carried out by DGAM , in its capacity as portfolio sub-manager, or by any other portfolio sub-manager currently responsible for such management, as applicable.

No changes will be made with respect to the Desjardins Global Macro ETF. DGAM will continue to act as portfolio manager of the fund and will retain the services of Graham Capital Management, L.P. as portfolio sub-manager.

- **Reduced management fees for certain classes of Desjardins Funds Units**

DI also announces that it will reduce the management fees of 16 Desjardins Funds by up to 8 basis points for certain classes of units. The management fee reductions are expected to take effect on or about January 1st, 2027.

These changes reflect DI's commitment to offering competitively priced actively managed investment funds. The following is a list of the affected Desjardins Funds unit classes:
